### About This Game

Space Farm is a Space Themed farming RPG!

It's the middle of the night, you are on earth. You hear a loud noise and rush to the window to see one of your beloved cows being tractor beamed into a space ship. Grabbing your best pair of overalls you hustle out to save her, then you realize, you are in the tractor beam!! There is no going back it seems as you are lifted 100 feet in the air, nooooo.

You end up on a foreign planet, and the only way you can get back to earth is to farm for the alien who abducted you. Maybe if you gain enough money, or find another way... You can get back to Earth! Luckily Sillion has an extra Space Farming Gun available for you to use, this is a lot easier than carrying around all those extra tools!

#### Features

Turn a foreign land into a diverse farm. Unlock and purchase new crops which seeds can be printed on your 3D printer! Unlock more sections of land from your alien overlord, landlord.

Upgrade your farming gun over time, unlock more space for items, minerals, fishing games, and collecting stuff. Don't forget to get to know the locals, but be careful, you will need to earn reputation with each of the different races of characters to earn enough favour to enter their businesses, and unlock new items!

Try selling your hard earned crops in the marketplace. You can choose to sell to different vendors with every changing pricing and economy. Gain reputation with every dollar you spend!
